HOUSE CHARITIES

Pop Tab Collection

Collecting pop tabs is a great way to teach kids about philanthropy and the importance of recycling while raising funds to help children and their families at the same time. Some of our Chapters raise thousands of dollars with their pop tab collections – up to \$30,000. Look for special RMHC pop tab collection containers in the shape of a house at schools, community and civic groups, and other local organizations in your area. You can also contact a Ronald McDonald House near you to ask about getting your own house for collection.
